

Maintain Foliar

Complex

Maintain Foliar Complex is a balanced organically chelated fertilizer designed to provide a base of complete nutrition in a foliar application

Maintain Foliar Complex contains a comprehensive range of the minerals required for strong healthy growth.

Phosphorous, Calcium, Magnesium & Boron need to be maintained at optimum levels within the plant throughout the active stages of plant growth.

The addition of Phosphorus as a foliar ensures this crucial element is available to the plant and overcomes any Phosphorous tie-up issues in the soil.

Nitrogen, Potassium and a broad range of trace elements are also included to ensure all plant functions are supported.

Maintain Foliar has been complexed with Fulvic acid and Mannitol to optimise uptake.

Nitrogen	Phosphorous	Potassium	Calcium	Magnesium	Sulphur	Iron	Manganese
4.23%	4.36%	4.03%	4.05%	0.91%	0.0%	0.36%	0.12%
Zinc	Copper	Boron	Silica	Mo	pH		
0.24%	0.06%	0.20%	0.03%	0.014%	4.5		

Turf Foliar Applications	Crops & Broad acre	Garden beds & Pots	Home lawns
5-10L/ha Every 2-4 weeks	2L/Acre	20ml/10L water	100ml /100m2

Available in :

1L, 5L, 10L, 20L, 120L ,200L & 1000L
